Department of Mechanical Engineering is very thankful to Shri Bhaskar Pratap Singh, an Engineering Graduate of 1962 Batch, who came forward to provide financial assistance to promote research work at Birla Institute of Technology, Mesra, by offering a scholarship to PhD candidates from the Mechanical Engineering Department.
We are really thankful to you, Sir, for your kind gesture.
It is worth mentioning that Mr. Bhaskar was with us during his Golden Jubilee Reunion, and it is then that he thought to support his alma mater.
Kudos to your thoughts.
